Income multiples and affordability

Applicants must be retired and receiving verifiable income from a pension or other sustainable source, such as investments or rental income. Once affordability is satisfied, we apply a 4.49 times income multiplier to determine the maximum level of borrowing.

To verify if your clients meet affordability criteria, contact a member of the team directly.

Mortgage and client criteria

Your client must be aged 55 or over and receiving verifiable pension income. For joint applications where both applicants are retired but cannot prove affordability in sole name applications will be considered where there is enough equity available to downsize to a two bedroom flat/house within 5 miles of the mortgage property. Your clients can use the sale of their home as their repayment strategy provided they have a minimum of 40% equity in their property. Up to 25% of the property value can be released for capital raising purposes. Borrowers must provide a signed declaration stating that in the event of death it is the intention of the surviving borrower to downsize The mortgage must be repaid following a life event, including:

- > death of the sole borrower or the surviving borrower for joint mortgages;
- > sole borrower or surviving borrower for joint mortgages entering long-term residential care; or
- > sale of the property.

- > Maximum 60% LTV
- > £200,000 minimum property value;
- > Section 106 restrictions are accepted where the developer has specific right to first refusal of buy back as long as no onerous terms or reduced value apply;

4 We'll cover the cost of a standard mortgage valuation on a property valued up to £400,000, which is equivalent to a £350 contribution towards the cost of a standard valuation. Your client may choose to have a RICS Homebuyers Report, however they'll have to cover the difference in cost between a standard mortgage valuation and the RICS Homebuyers Report.
