Affordability	
ICR Interest Coverage Ratio (ICR) will be calculated between 125%-140% dependent on the applicant's tax band and individual circumstances.	
Personal ownership ICRs	
Basic rate taxpayers	125%
Higher rate taxpayers	140%
Additional rate taxpayers	140%
Limited company ICR	
Limited company applications	125%
Top slicing The rental income for the property must be a minimum of 110% of the payment when calculated at the pay rate of the chosen product. Surplus income from an applicant's existing property portfolio, earned income, or a combination of the two can then be used to demonstrate affordability against the ICR required for the loan based on our current lending criteria at the assessment rate for the chosen product. Not available to first-time buyers or for remortgage applications.

Bank of England Base Rate (BBR) and the reversion rate
BBR reversion rates are variable rates that are linked to the Bank of England base rate. For new applications, any change to BBR will apply on our systems and documentation the next day. For existing accounts, any change to BBR will apply on the day of the change.
All of our BBR reversion rates have a floor. This means that if BBR were to fall to 0.00% or less the rate payable will be 0.00% plus the agreed set percentage above BBR. This means that the rate payable will never go below 0.00% plus the additional percentage rate of the reversion rate.
